How to Play FootGolf

The main goal of FootGolf is similar to the main goal of golf: to get the ball (in this case a standard #5 size soccer ball) from the tee box into the hole (21 inches in diameter) in the least number of kicks possible.

Basic Rules:

To tee off, you may kick your ball from a position up to two yards behind the tee box. Make sure your kick will not interfere with other players.

The ball must be played in a single movement. You are not allowed to push the ball with the top or bottom of your foot.

Wait to play your next shot until the ball has completely come to rest. It is not legal to stop the ball from rolling from the wind.

Play the ball where it lies. You are not allowed to move the ball or remove jammed objects. Exception: You may mark the spot and lift the ball when it may obstruct another player's kick or ball in any way.

Out of Bounds: OB is defined by white stakes. If your ball goes OB, place the ball within 2 steps from where the ball crossed between the white stakes, and receive a one-stroke penalty.

How to Play Disc Golf

The object of the game of disc golf is to complete a course in the fewest throws of the disc.

Play on each hole begins at the tee and ends at the target. After the player has thrown from the tee, each successive throw is made from where the previous throw came to rest. On completing a hole, the player proceeds to the tee box of the next hole, until all holes have been played.
